**Re: Riverside South Building J1  
BLL Project No. 116166.00  
Miller Highway Tunnel West 63<sup>rd</sup>-62<sup>nd</sup> Street**

Dear Charlie,

Despite all of the logistical and regulatory issues, your team did what you said it would do, less than a year ago, when the contract was awarded: substantial completion of the Miller Highway Tunnel prior to November 30, 2008.

The performance of DeFoe Corp. was commendable. Your team performed the work in a professional, cooperative and workmanlike manner. They were a pleasure to do business with, and I look forward to working on similar projects with them in the future. In particular, I would like to note the efforts of Mike Casella, Bobby Colella and Vinnie Macri, whose hard work made this project such a success.

Many thanks.

Very truly yours,
